

Piazza Stone is approved for reconstruction of historic buildings. New additions, exterior alteration, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment. Piazza Stone has the capability to re-create the appearance of the non-surviving historic properties in materials, design, color, and texture.
